### Professional Summary

AI and Data Science graduate proficient in Python, data analysis, machine learning basics, backend development, and deploying data-driven applications. Strong understanding of preprocessing, modeling, automation systems, and solution design. Dedicated to delivering high-quality work with strong analytical and teamwork abilities.

### Skills

Python

Data Analysis

Machine Learning

Backend Development

HTML CSS

Database SQL

### Education

Bachelor of Engineering AI and Data Science  
Sapkal College of Engineering Nashik

### Awards and Achievements

Techfest Winner 2024  
Best AI and DS Student Award  
AI Based Innovation Award  
Top 10 Finalist AI Model Competition

### Projects

Tomato Disease Detection ML DL  
Automatic Clothes Protection IoT AI  
Python Text to Speech App  
Portfolio Website HTML CSS JS
